

Mozilla Thunderbird:

Step 1: Click on Email under “create a new account:”

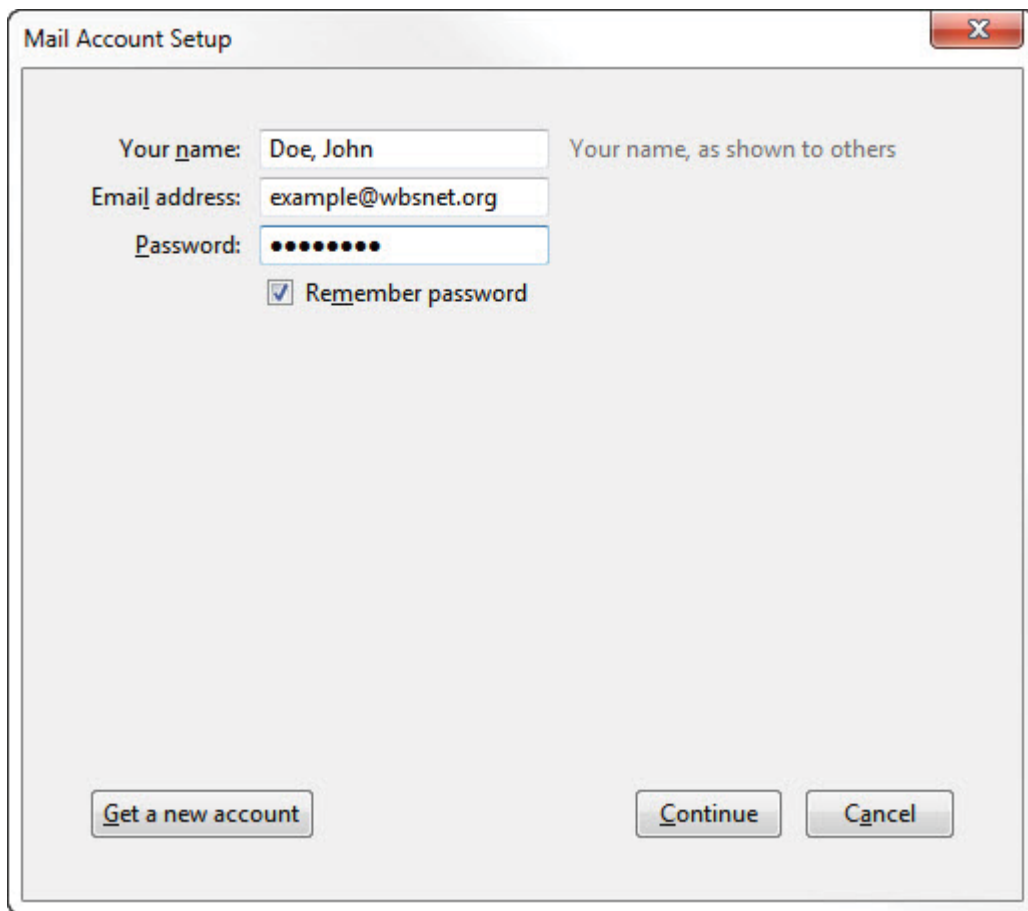

Would you like a new email address?

In partnership with several providers, Thunderbird can offer you a new email account. Just fill in your first and last name, or any other words you'd like, in the fields above to get started.

  gandi.net

The search terms used are sent to Mozilla ([Privacy Policy](#)) and to 3rd party email providers gandi.net ([Privacy Policy](#), [Terms of Service](#)) to find available email addresses.

Step 2: Click on "Skip this and use my existing email"

Step 3: Fill in the email address and name and password, click Continue.

Step 4: Click on "Manual Config" as soon as it appears.

Mail Account Setup ✕

Your name: Your name, as shown to others

Email address:

Password:

Remember password

	Server hostname	Port	SSL	Authentication
Incoming:	<input type="text" value="mail.wbsnet.org"/>	<input type="text" value="995"/>	<input type="text" value="SSL/TLS"/>	<input type="text" value="Autodetect"/>
Outgoing:	<input type="text" value="mail.wbsnet.org"/>	<input type="text" value="587"/>	<input type="text" value="STARTTLS"/>	<input type="text" value="Autodetect"/>
Username:	<input type="text" value="example"/>			

Step 4: Fill in the appropriate fields using customers email, username, and password. Click "Re-test" It should ungrey the "done" button when it is done testing. Click done to finish the setup.
